*As in this course I will be teaching live you guys can also take help in your projects you are making .

What is the difference between this bootcamp and other courses available on the internet ?

No doubt there are hell a lot of courses on the internet but what makes this course different from those courses is that i will be there to guide you in your whole journey from zero to hero , also i will be sharing my industry experience with you guys which can help you to crack job for a frontend developer .

What is the duration of the bootcamp ?

This course is having a duration of 30-45 days, basically we will divide our 6 day week (Monday-Saturday) in 2 parts (4+2) 4 days for teaching and 2 days for work assigned to you.

What is the pricing for this bootcamp ?

Pricing is very less for the amount of content you will be getting through this bootcamp which is only 1000rs per student

How will you be teaching ?

Mode of teaching will be online via goto webinar or zoom meeting, also there will be a whats app group in which you can ask any doubts/suggestions you are having .

Who can join this bootcamp ?

This bootcamp is designed for absolute beginners . we will be building everything from scratch .

*note :- if you already know the basic and want to join the bootcamp so please be patient

Prerequisite

Bare minimum requirements are you should have a laptop with internet connection.

About me (your instructor)

Hi guys if you have reached the end of this document you will be wondering who will be the instructor so let me introduce myself i am Aniket (Software Engineer at Rocketium) . I am having 2 years of experience in web technologies . I will share my journey with you all so that you can learn from my mistakes . Hope to see you in bootcamp
